COURSES OF INSTRUCTION.

The Normal School Law provides for two distinct Courses of Instruction; the Elementary Course, and the Scientific Course.

ELEMENTARY COURSE

PREPARATORY.

Algebra, Arithmetic—oral and written—English Grammar, Geography, Orthography, Reading, Penmanship, Didactics.

JUNIOR YEAR.

FALL TERM—Algebra, beginning at simple Equation; Arithmetic, English Grammar and analysis, Latin, Drawing, Reading, Didactics.

WINTER TERM—Algebra, half term; Arithmetic, half term; English Grammar and Analysis, Latin, Physiology, Drawing, Didactics.

SPRING TERM—Botany, U. S. History and Constitution, Latin, Didactics, Book-keeping, Physiology and Mathematical Geography, Reviews.

SENIOR YEAR.

FALL TERM—Geometry, Mental Philosophy, Natural Philosophy, Rhetoric, Vocal Music, Reviews.

WINTER TERM—Geometry—half term; Natural Philosophy—half term; Literature, Didactics, Reviews.

SPRING TERM—Elocution, Didactics, Reviews in all the studies of the course.

Throughout the Course—Composition, Speaking, and Orthography.

SCIENTIFIC COURSE.

JUNIOR YEAR.

FALL TERM—University Algebra, Solid Geometry, Chemistry, Latin Grammar and Latin Reader.

WINTER TERM—University Algebra, Latin Reader, General History, Zoology.

SPRING TERM—Trigonometry, and Surveying, English Literature, Geology, Latin, English Classics.

SENIOR YEAR.

FALL TERM—Analytical Geometry, Natural Philosophy, (Snell's (Olmsted) Cæsar.

WINTER TERM—Calculus, Natural Philosophy, Cæsar.

SPRING TERM—Calculus, Moral Philosophy, Logic, Astronomy, Reviews.

SUBSTITUTIONS—Latin, French and German may be substituted for Spherical Trigonometry, Analytical Geometry, Calculus, the mathematical part of Natural Philosophy and Astronomy, and the last third of University Algebra.

NOTE—The Scientific Course also includes the Elementary Course.

Classes are also formed to accommodate the wants of those who are unable to take the regular course.

EXAMINATIONS.

Candidates for graduation are first examined by the Faculty, and if found qualified, are recommended to the State Board of Examiners.

The State Superintendent, who is the President of the Board, two Principals of Normal Schools, and two County, City or Borough Superintendents, constitute the Board of Examiners.

DIPLOMAS.

A student graduating in the Elementary Course receives a diploma, in which is named the branches studied, and by which he is constituted Bachelor of Elements; the diplomas of those graduating in the Scientific Course enumerate the distinctive branches of the Course and constitute their holders Bachelors of the Sciences.

Regular graduates who have continued their studies for two years after graduating, and who have practiced their profession for two full annual terms* in the Common Schools of the State, on presenting to the Faculty and the Board of Examiners a certificate of good moral character, and skill in the Art of Teaching, from the Board or Boards of Directors in whose employ they have taught, countersigned by the County Superintendent, may receive second diploma, constituting them Masters in the several studies embraced in the course in which they graduated, and conferring upon them the corresponding professional degrees:

TEACHER OF ELEMENTARY DIDACTICS; TEACHER OF SCIENTIFIC DIDACTICS.

The Normal School Law makes it the duty of the State Board of Examiners to grant Diplomas or State Certificates to actual teachers of Common Schools, without their having attended the Normal Schools as students, upon the following conditions:

1. The applicant must be twenty-one years of age, of good moral character, and must have taught successfully during three consecutive terms, in Common Schools of this State. The proof of good moral character and of satisfactory teaching for the requisite term must be a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. The examination may be either the Elementary or the Scientific Course, as the applicant may select, according to the list of studies as printed in the circulars of the State Normal Schools, and approved by the State Superintendent; or in such other studies as may, by the Board of Examiners, be deemed equivalent.

3. Each applicant is required to prepare and present to the State Board of Examiners an original thesis, of not less than six folio pages of manuscript, on some professional subject, which thesis is to be retained at the school where the examination takes place.

4. The examination and certificate are without expense to the applicant, and the certificate is full evidence of qualification to teach the branches therein named, in any part of the State, without further examination.

5. Practical teachers, attending examinations at State Normal Schools for the purpose of procuring State Certificates, are examined separately from the regular students; and both the State Board of Examiners and the Faculty of the school at which the examination is held, take part in the examination, all being required to sign the certificate.

*An annual term must be at least five months.

MISCELLANEOUS.

Before students are graduated they are required to write a thesis upon some educational subject.

No person can be graduated from a Pennsylvania Normal School, who has not attended the school at least one-half of a school year.

Applications for second diplomas must be presented to the Board of Examiners at the regular annual examination of the school.

EXPENSES.

Tuition in all branches, including Book-Keeping, Drawing, Penmanship, and Vocal Music, and Board, including fuel, oil, room-rent, and ordinary washing, \$63.00 per term, or \$189.00 per year.

The first payment, \$40.00, to be made on the first day of the term; the second payment, \$23.00, to be made at the middle of the term.

No deduction is made for absence of less than three weeks, and then only in case of sickness.

The total expenses per year are \$189.00. When students avail themselves of State Appropriation, the expenses are reduced for the Junior Year to \$160.00, and in case of Soldiers' Orphans, to \$147.00

For the Senior Year the expenses are reduced to \$118.00, and in case of Soldiers' Orphans, to \$98.00.

Tuition without board, including all branches as above, \$14.00 per term, or \$42.00 per year. The first payment, \$8.00, to be made the first day of the term; the second payment, \$6.00, to be made the middle of the term. No deduction for absence of less than half a term.

Instruction on Piano Forte, per term of twenty-four lessons, \$12.00.

Use of instrument two hours per day per term, \$2.00.

Music bills payable each half-term in advance.

Students' rooms are furnished with stoves, chairs, tables, stands, pails, bedsteads, mattresses, pillows, and one comfortable.

Students furnish lamps, mirrors, wash-bowls and pitchers, napkins, towels, pillow slips, sheets and one comfortable. The last five articles enumerated, together with all clothing, should be distinctly marked with full name.

For two days at the opening and two at the close of each term, students and their baggage are carried to and from the railway station free of charge.

All baggage should be distinctly marked with the name of the owner, and "State Normal School," to insure its being brought to the Normal buildings. Whenever baggage is to be taken to the station, it should be marked with the name and destination of the owner.

Produce, limited by the wants of the Institution, will be taken in payment for board, whenever patrons prefer to make payments in this way.

The ordinary text books are rented to students.

All students are required to board in the Institution, unless specially excused by the Trustees, or those living with parents or guardians.

All bills must be settled with the Treasurer.

STATE APPROPRIATIONS.

By a recent act of the Legislature, the following appropriations are made by the State to Normal students and Normal graduates:

1. Each student over seventeen years of age, who shall sign a paper declaring his intention to teach in the Common Schools of the State, shall receive the sum of Fifty Cents per week.

2. Each student who has been disabled in the military or naval service of the United States, or of Pennsylvania, or whose father lost his life in said service, and who shall sign an agreement as above, shall receive the sum of One Dollar per week.

3. Each student, who, upon graduating, shall sign an agreement to teach in the Common Schools of the State two full school years, shall receive the sum of Fifty Dollars.

4. Any student, to secure these benefits, must attend the School at least twelve consecutive weeks. The State appropriation is to be deducted from the regular expenses of students for board and tuition.

MODEL SCHOOL.

Connected with the Normal School is a Model School of 100 pupils. This School is taught chiefly by the Normal students, under the supervision of the Principals and competent and experienced Critic Teachers.

CABINET.

There are now more than 5,000 specimens in the Cabinet, among which are:

1. The Foster collection of minerals. This magnificent collection, consisting of 2,500 specimens, the Committee were exceedingly fortunate in purchasing from Enoch Foster, Jr., A. M., of Bethel, Me. Fifteen hundred specimens of this collection were classified and labeled by that very careful scholar, Prof. Shepard, of Amherst College. The remainder were added by Mr. Foster who is himself a man of considerable taste.

2. The Smithsonian collection. This was the generous gift of the Smithsonian Institute, Washington, D. C., through its Secretary, Joseph Henry, LL. D. There are about 100 minerals; a large number of specimens of rock, representing the building material of the various public works in Washington; and a valuable collection of shells. These were labeled by the minerologist of the Smithsonian Institute.

3. The Conchological collection. This consists of one hundred genera and four hundred species of shells, all carefully labeled—purchased by Profs. Fradenburg and Smith, and presented to the Institution.

4. The Eyster collection. This was the gift of Dr. Eyster, Harrisburg, Pa.; it consists of about 100 minerals.

5. Prof. Fradenburg presented a collection consisting of about 150 specimens, minerals and fossils, mostly Trenton and Niagara.

Students will find good facilities for scientific investigation. Those who are engaged in original investigation, and not connected with the school, will be permitted under proper restrictions, to avail themselves of advantages offered by this Cabinet.

APPARATUS.

The Philosophical and Chemical apparatus is sufficient to afford students the opportunity to perform most of the experiments necessary to develop the principles of the sciences pursued.

NORMAL LITERARY AND ATHENÆAN SOCIETIES.

These are Literary societies, composed of students of the Normal school. They have small but select libraries. Literary exercises are held weekly, and each society gives an annual literary entertainment.

ATTRACTIONS OF OUR TOWN.

It is conceded by all who are acquainted with Mansfield, that it is one of the most moral and cultured towns in Pennsylvania. The citizens are noted for their sobriety, intelligence and enterprise.

There is not a town in the State where the young are less exposed to the influences of vice and immorality than here.

By a special act of the Legislature no intoxicating liquors can be sold or billiard tables kept within a radius of two miles of this institution.

The healthfulness of the place is excellent, and the scenery and beauty of surroundings unsurpassed.

These are desirable features and will be a great inducement for parents to send their children to Mansfield State Normal School, where their moral and intellectual wants will be equally well cared for.

Here is located the Soldiers' Orphan School, and also Prof. F. M. Allen's Commercial College, which has recently been opened and gives great promise of success and usefulness.

IMPROVEMENTS. ●

Over \$3000 have been expended upon improvements, furniture, library and apparatus, and as much more will be expended the coming year.

It is the design of the Trustees to make the State Normal School a first-class institution in every particular, and they will spare no pains in their efforts to keep the school fully up to the high standing and reputation which it has hitherto maintained.

GOVERNMENT.

The government of the School is based upon the principle, "Do right because it is right."

Special efforts are made to secure obedience to regulations by the cultivation among our pupils of a high sense of honor.

The positive regulations adopted are based upon the following principles:

1st. No student should be allowed to trespass upon the rights and privileges of another.

2d. Privileges that all cannot enjoy, should be granted to none.

If pupils are not doing well, either through indolence, negligence, or otherwise, their parents or guardians will be informed of it.

Religious Privileges.

The churches of Mansfield are Presbyterian, Episcopal, Baptist and Methodist. Connected with the school are a Sunday morning Bible Class, and Sunday and Wednesday evening Prayer Meetings, which all the students have an opportunity of attending.

Location.

Mansfield is a beautiful village of 1,700 inhabitants, situated on the Tioga and Elmira State Line Railroad, thirty-five miles from Elmira, N. Y., and ten miles from Blossburg, and on the Troy and Wellsboro Stage Line, sixteen miles from Troy, and twelve miles from Wellsboro. By a special act of the Legislature, no intoxicating liquors can be sold, nor billiard tables kept within a radius of two miles of the State Normal School building.

Students coming via the Northern Central Railroad, take stage from either Roaring Branch or Troy, or railroad from Elmira, N. Y. Those coming by Lehigh Valley Railroad, change cars at Elmira. Those coming by the Erie Railroad, from the West, change cars at Corning, or Elmira, N. Y., and from the East, at Elmira.

Buildings and Fixtures.

The South building is of brick, one hundred and fifty feet in length by fifty feet in width. The rooms for students are large, with extra height of ceiling. This building and grounds cost about thirty-six thousand dollars.

The North building, also of brick, is situated one hundred and fifty feet north, and the same distance east, of the South building. It is one hundred and fifty feet in length and four stories in height. The main building is 78x43; and the two wings, with sixteen feet of front projection, are each 36x57. This building and grounds, together with the furniture, cost about forty thousand dollars.

The boarding hall, which is in the North building, is so arranged that students are grouped in families of ten at the tables, pupils of both sexes being seated around each table. The grouping is made with distinct reference to the cultivation of social habits and the rules of good society.

Applications for Teachers.

Many Principals of Academies and Seminaries, and Directors of Common Schools apply at this Institution for teachers. Good teachers are furnished whenever practicable; but School Officers must not suppose that all persons who attend a Normal School three to six months, are thereby made good teachers.

The Kind of Students we Want.

It is the determination to make this Institution a place where Students are taught correct moral principles, and where thoroughness and steady progress are prominent features. Therefore we desire Students only who come to us with the following definite purposes :

- 1st. To make school duties their chief business.
- 2d. To give their whole time and energy, during study hours, to school work.
- 3d. To cultivate a teachable spirit and cheerfully acquiesce in all the regulations and requirements of the school.

The Kind of Students we do not Want.

- 1st. Those who come here to spend their money and idle away their time.
- 2d. Those who have "fast" habits and who come here simply because they cannot bear the restraints of home.
- 3d. Those who are unwilling to practice the self denial necessary for their own improvement, and for the general good of the school.

General Remarks.

If those desiring to enter the school are not prepared to make any sacrifices, to make study the first and only aim while here, to work diligently and faithfully, to be honest in all things, they should go anywhere but to a Normal School.

The Normal School is intended to be a self governing institution. The persons to whom it offers decided advantages, must of necessity be those who will understand what is requisite, in order that the largest return may be received by them for their outlay of time and money. If any, through inadvertency, give evidence that they have mistaken the school in this respect, there will be no hesitancy in granting them a perpetual furlough.

Parents and guardians are earnestly reminded that under the most favorable circumstances, students who board out of the building cannot make as satisfactory progress as those who are under the immediate supervision of the school authorities.

Alumni.

This institution graduated its first class in 1866. The graduates now number 374. Graduated this year, 26.
